### **DETAILED ACTION**

1. This action is responsive to the election, filed 2001-09-04.
2. The group art unit of the Examiner handling your case has changed. The new art unit is **2164**. Please use current art unit on all correspondence to help us route your case in a timely fashion.

### ***Election/Restriction***

3. Applicant's election with traverse of Claims 1-38 in Paper No. 8 is acknowledged. The traversal is on the ground(s) that it would not be unduly burdensome for the examiner to conduct a search on all pending claims. This is not found persuasive because these inventions require separate status in the art by their different classifications and divergent subject matter and search for group I is not required for groups II.

The requirement is still deemed proper and is therefore made FINAL.

### ***Title***

4. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Art Unit: 2164

*Double Patenting*

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-38 are rejected under the judicially created doctrine of double patenting over claims 1-44 of U. S. Patent No. 5,794,207 since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter.

Art Unit: 2164

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent.
